131742	A3, (29.7 cm x 42.0 cm), 20 sheets
131743	A3+, (32.9 cm x 48.3 cm), 20 sheets

Product Description:

This brilliant white and glossy inkjet photo paper for high quality colour prints is ideal for use as an all-round paper. The Glossy Paper 200 g produces vivid, premium printing results. Strong colours, immediate resistance to smudges, excellent resistance to ageing and a broad spectrum of uses round off the benefits offered by the Glossy Paper 200 g.

Product Properties:

Brilliant white, glossy surface that produces prints with high colour differentiation and vivid colour reproduction that is true to the original. Thanks to the microporous ink-receiving layer the material dries immediately and the print is subsequently waterproof. The material is highly suited to printing with both dye and pigment-based inks. Its high-gloss finish is retained when pigment-based inks are used.

Applications:

Leisure time and landscape photographs, prints from your digital camera for daily print requirements, family photographs.

Applications Notes:

The best printing results will be obtained in a standard atmosphere of 23 °C and a relative humidity of 50 %.

To ensure that the paper feeds through the printer properly, the Glossy Paper 200 g should always be stored in its original packaging away from direct sunlight and sources of humidity. The Glossy Paper 200 g is suitable for cold and hot laminating.

Printer Compatibility:

Epson, Canon, Hewlett-Packard, Lexmark, Kodak.
Further printers upon request.

Recommended Storage Conditions:

Temperature	15 - 25 °C
Rel. air humidity	40 - 60 %
